Specification

Housing Material:	Hard Anodized 6082-T6	Supply Voltage:	24VDC
Window/Lens:	Glass - Frosted	Power Requirement:	500mA
Height:	60mm	Power Consumption:	12 watts @ 500mA
Diameter Main Body:	75mm	Standard Connector:	MCBH3M
Diameter Base:	114mm	Operating Life:	50,000 Hours
Operating Depth:	450m		
Typical Beam viewing angle:	125°		
Typical Luminous Flux	500 lumens @ 500mA		
Typical Colour Temperature	4000 ± 500 °K		
LED Colour	Warm White (others available)		

MCBH3M (face view)

Wiring Configuration

Pin	Function
1	+24 V
2	0V
3	Not Connected
