Nominal Frequency Response:	400Hz to 10KHz
Audio Power Output:	7.8W into 80hm
Loudspeaker:	80hm, on/off toggle
Recording Output:	via RCA socket

Part No: CP2P

Panel-Mount 2-channel Communications System

The popular C-Phone 2 diver communications system is now available in panel-mount format. Totally up to date modern electronics have been carefully selected and tested to give the clarity you would expect from modern surface communications equipment – even with standard microphones and earphones found on most dive sites. Clear and crisp, even the untuned ear can now understand what it being said. The C-Phone 2P is perfectly suited for installation in fixed dive control stations and even portable gas control panels.

Applications: Commercial Diving – Gas Control Panels – Containerised Dive Stations
