

Order Code: CM-310 (Dual Ear, RMG-4-MP)

Dual ear diver communications assembly for use with AGA Full Face Masks (FFM)

The C-Tecnic AGA Communications Assembly is designed to provide reliable diver-to-surface communication when used with AGA full face masks.

The assembly comprises a dynamic Hi-Sense microphone with cover plate and dual encapsulated earphones, connected via a wet mateable connector. It is easily fitted to the mask using a made-to-measure cover plate, creating a secure seal when installed with the supplied mounting screws.

Technical Specification

Model	CM-310
Earphone	28 ohm (Dual ear)
Microphone	8 ohm
Cable Length	400 mm
Cable Material	Neoprene rubber
Connector*	RMG-4-FS (4 pin)

*Other connector options available on request
