400391 (Earphone Left)  
400374 (Full Comms Set)

## Diver communications assembly for helmet-based systems

The Bagpipe communications assembly is a robust, high-performance solution designed for use with a range of diving helmets.

Engineered as a reliable replacement for OEM assemblies, it provides clear and consistent communication in demanding underwater environments. The system is designed for durability and comfort, supporting prolonged use in operational conditions.

## Technical Specification

Model	400394, 400392, 400391, 400374
Combined Weight	250 g
Microphone Impedance	8 $\Omega$
Earphone Impedance	8 $\Omega$
Combined Impedance	2.6 $\Omega$
Left Cable Length	385 mm
Right Cable Length	310 mm
Speaker Length	255.5 mm
Connector	M4 eye crimp

**Applications: Commercial diving, Search and rescue, Military diving**
