

C-Phone 2 & 3 Diver Radios

Order Code: CP2 (2-Channel)
CP3 (3-Channel)

Portable diver communications system for 2 and 3 diver operations

The C-Phone is a portable and rugged diver communications system designed to deliver clear and reliable diver-to-surface communication.

Modern electronics have been selected and tested to provide high-quality audio clarity, even when used with standard microphones and earphones commonly found on dive sites. The system is available in 2 and 3 channel configurations, allowing communication with multiple divers.

Designed for ease of use in operational environments, the unit features simple controls for channel selection and volume adjustment, along with integrated battery power for extended use.

Technical Specification

Model	CP2 (2 channel), CP3 (3 channel)
Dimensions	299 × 248 × 195 mm
Weight	3.5 kg
IP Rating	IP67 (closed), IP65 (open)
Power Supply	Rechargeable SLA battery
External Input	12 V external input
Volume Control	Individual uplink / downlink
Channel Selection	Individual or all channels
Configuration	2-wire push-to-talk
Battery Operating Life	~30 hours
Standby Current	58 mA
Frequency Response	400 Hz to 10 kHz
Audio Power Output	7.8 W into 8 ohm
Loudspeaker	8 ohm, splashproof
Recording Output	Via RCA socket
Inputs	Banana plugs

Applications: Commercial diving, Search and rescue, Military diving
