

C-Phone 4 Diver Radio

Order Code: CP4 (4-Channel)

Portable diver communications system for 4 diver round robin operations

The C-Phone 4 is a portable and rugged diver communications system designed to deliver clear and reliable diver-to-surface and diver-to-diver communication.

The system provides full round robin communications between the tender, two working divers, and one standby diver. An additional channel allows communication with other personnel, such as deck support crew.

Modern electronics have been selected and tested to provide high-quality audio clarity in demanding environments. Designed for ease of use, the unit features clearly labelled controls, simple channel selection, and individual volume adjustment, with integrated battery power for operational flexibility.

Technical Specification

Model	CP4 (4 channel)
Dimensions	360 × 290 × 170 mm
Weight	3.5 kg
IP Rating	IP67 (closed), IP65 (open)
Power Supply	Rechargeable LiPo battery
Volume Control	Individual uplink / downlink
Channel Selection	Individual channels
Configuration	2-wire push-to-talk or 4-wire selectable
Battery Operating Life	6–7 hours
Standby Current	170 mA
Frequency Response	400 Hz to 10 kHz
Audio Power Output	7.8 W into 8 ohm
Loudspeaker	8 ohm, splashproof (SP)
Panel Microphone	Omnidirectional (SP)
Recording Output	Via RCA socket
Inputs	Banana plug

Applications: Commercial diving, Search and rescue, Military diving
