

CT4009 C-Lamp Magnetic Hyperbaric Chamber Lamp

Order Code: CT4009

Magnetic Chamber Lamp

The C-Lamp is a safe, reliable, and convenient light source designed for use in hyperbaric chambers.

Utilising LED technology from the C-Tecnicos range of underwater diver lights, the aluminium-housed LED array is mounted on a flexible gooseneck, allowing easy adjustment of light direction. The magnetic base attaches securely to the internal wall of the chamber, providing illumination exactly where it is required.

Technical Specification

Model	CT4009
Housing	Anodised aluminium
Light Body Length	79 mm
Light Body Diameter	30 mm
Window	Acrylic
Flexi Neck Length	300 mm
Base Body Height	55 mm
Base Body Diameter	60 mm
Operating Depth	1000 m
Beam Angle	125°
Voltage	24 VDC
Operating Current	83 mA
Power Consumption	2 W
Typical Luminous Flux	139 lm
Colour Temperature	5500 K (cool white)
Connector	RMG-3MP tail
Operating Life	50,000 hours

Applications: Hyperbaric chambers, Diving bells, Saturation diving, Internal chamber lighting
