

Order Code: CT9030 (100Ah)
CT9031 (50Ah)

Power your C-Vision dive control station on the move and in remote locations

The C-Tecnicos Portable Power Supply (PPS) enables operation of C-Vision systems in remote locations where mains power is not available.

A step-up inverter delivers 240 V AC output from internal batteries housed within a heavy-duty transport case, allowing reliable operation of dive control and video systems in the field. The batteries can be recharged from a universal mains supply when back at base.

The PPS can also be used as an uninterrupted backup power source.

Technical Specification

Model	CT9030 (100 Ah), CT9031 (50 Ah)
Supply Duration*	CT9030: 10–14 hours; CT9031: 5–8 hours
Output Voltage	240 V AC (via inverter)
Dimensions	CT9030: 795 × 518 × 394 mm; CT9031: 625 × 500 × 297 mm
Weight	CT9030: 86 kg; CT9031: 53 kg
Charging	Universal mains input

*Supply duration dependent on system load and usage.

Applications: Commercial diving, Military diving, Police diving, Marine survey, Remote operations
