

CT4010 Hyperbaric Chamber Light

Order Code: CT4010

Adjustable chamber lighting for diving and hyperbaric use

A dimmable light designed for general illumination or bunk lighting in diving chambers and hyperbaric environments.

The CT4010 is an aluminium chamber light rated to 450 msw. Its adjustable brightness and frosted lens provide a wide, soft light output suitable for internal chamber use.

To relieve internal pressure caused by helium ingress, the housing is fitted with a helium relief valve.

Technical Specification

Model	CT4010
Housing	Anodised aluminium
Weight	1kg
Body Dimensions	75 mm Ø × 75 mm H
Base Dimensions	114 mm Ø × 10 mm H
Window	Frosted acrylic
Operating Depth	450 msw
Beam Angle	123°
Voltage	24 VDC
Operating Current	250 mA
Power Consumption	6 W
Colour Temperature	5500 K (Cool white)
Connector	MCBH2MSS (Standard)*
Operating Life	50,000 hours

Applications: Commercial diving, Inland diving, Saturation diving, Offshore operations, Search and rescue
