

Adjustable Rescue Lanyard

Order Code: HA020

Adjustable webbing lanyard with stainless steel carabiners for diver recovery applications

The C-Tecnicos Adjustable Rescue Lanyard complements the company’s range of diver recovery equipment, including block and tackle systems, spreader bars and JOK recovery harnesses.

Supplied with two stainless steel locking carabiners, the lanyard features yellow webbing and stainless steel slide buckles. Its length can be adjusted between 200 mm and 600 mm to suit the recovery arrangement.
