Weezle Diving Undersuits

C-TECNICS
SUBSEA ELECTRONICS

Order Code: **HW-040 (Compact)**
HW-041 (Extreme)
HW-042 (Extreme Plus)

One-piece thermal undersuits for use beneath a drysuit

Available through C-Tecnics, the UK-made Weezle range offers three insulation levels. Compact is the lightest option, suited to neoprene drysuits and warmer water.

Extreme is the medium-weight option for tri-laminate drysuits. Extreme Plus is the heaviest option, intended for colder conditions and longer decompression stops.

Thumb loops, ankle stirrups and an elasticated waist help keep the undersuit in position. Reinforced shoulders, a two-way YKK front zip, two hip pockets and a chest pocket complete the design.

Technical Specification

Models	Compact / Extreme / Extreme Plus
Sizes	XS, S, M, L, XL, XXL
Colour	Black
Insulation	Softie® Premier, 100% polyester
Inner fabric	Thermal Suede 1, 100% polyester
Outer fabric	Paratex Light, 100% nylon

Applications: Drysuit diving, commercial diving
