Christo-lube MCG 111

C-TECNICS
SUBSEA ELECTRONICS

Order Code: **MCG-111**

Oxygen-compatible lubricant for diving systems and breathing apparatus

Christo-Lube® MCG 111 is a fully fluorinated PFPE grease thickened with PTFE. Its medium consistency makes it suitable for lubricating valve and regulator components.

The lubricant offers oxygen stability and compatibility with a wide range of metals, plastics and elastomers, together with resistance to harsh chemicals, fuels and solvents.

Supplied in a 2 oz tube. Apply in accordance with the equipment manufacturer's servicing instructions and the lubricant product and safety data sheets.

Technical Specification

Order code	MCG-111
Pack size	2 oz tube
Base oil	PTFE
Thickener	PTFE

Applications: Commercial diving, Inland diving, Saturation diving, Offshore operations, Search and rescue
