Weezle Diving Undersuits

C-TECNICS
SUBSEA ELECTRONICS

Order Code: HW-043

Long-cut thermal boots for use inside a drysuit

Weezle Undersuit Boots provide thermal coverage from the foot to just below the knee. The extended sock-style fit helps close the gap between undersuit legs and socks.

Behind-the-knee tensioners provide an adjustable fit, while the smooth outer fabric helps the drysuit slide over the boots. A reinforced sole adds durability.

Made in the UK and available through C-Tecnics in black, sizes XS to XL. Supplied with a stuff sack.

Made using the same high-performance fibres as the Weezle Extreme undersuit, these thermal boots provide insulation around the feet and lower legs.

Technical Specification

Order code	HW-043
Product type	Thermal undersuit boots
Sizes supplied	XS, S, M, L, XL
Colour	Black

Applications: Drysuit diving, commercial diving
